15TH YEAR. NO. 8. SALEM, OHIO, SATURDAY, JANUARY 10, 1903. TWO CENTS.

WATER IS OF THE FINEST QUALITY.

Report of the Ohio State Chemist on the Analysis of the Water Company's New Artesian Well.

WATER IS SUPERIOR TO THAT NOW IN USE.

Early in last December the Salem Water Works Co., of which A. R. Dow is superintendent, brought in from solid rock a fine artesian water well on the Whinnery farm, a short distance west of the city. The well was put down as a test on land owned by the company. Mr. Dow had long believed that there was a good source of water under the land and contended that if this could be tapped and run into the reservoir at the West Main street pumping station by the force of gravity, thus reducing the expense of pumping and greatly increasing the earning capacity of the company.

The well was brought in in due time. A sample of the water was sent to the state board of health for analysis, as required by law. The state chemist did not examine the sample at once, but when he did do so sent word here that the supply was all right and that a full report of the analysis would follow later.

Acting upon the advice of the state board of health, Supt. Dow turned the water from the test well into the mains and the city has been using the water since about the first of the year. Friday evening Mr. Dow received the report of the state chemist and it was as follows in full.

REPORT ON WATER FROM SALEM

Proposed supply. No. 2660.

This sample was received on the 20th inst. from Dr. E. J. Schwartz and was marked "well No. 1." Examination gave the findings on the accompanying sheet.

The analysis shows a "deep" ground water of good quality and suitable for a public supply. In appearance the water is not quite clear, but this is a very small matter in view of the very good quality otherwise indicated by the analytical findings.

Respectfully submitted,

E. G. HORTON,

Bacteriologist and Chemist.

To the Secretary of the Ohio State Board of Health, Columbus, O., Dec. 29, 1902.

Ohio State Board of Health, Laboratory,

Bacteriologist and Chemist.

The letter written by the state chemist clearly states that the water is of fine quality for a public supply. The figures submitted are not so easily understood by the average reader. Some little explanation may, therefore, be necessary.

The report states that there are no "incrusting constituents" in the water. This is a favorable factor over that possessed by the water the city has been using. Heretofore the mains have been incrusted with lime, which made the water black when it stood for any length of time, and made frequent flushing of the "dead ends" necessary. The new supply is free from this objectionable feature. The report also shows that the artesian water is reasonably high in alkalinity, which guarantees that it is much softer than that from the old source of supply. In the sample sent the report shows that there was not a trace of "colon bacilli," the presence of which causes typhoid fever and kindred diseases. The turbidity mentioned will probably not be appreciable when the work of drilling in the field ceases.

For the reason that the report of the artesian well water is figured on a basis of parts in a million, and that the reports of analysis of the water used heretofore was estimated on so many parts in a gallon, there can be no comprehensive comparison made. Those in a position to know state that the artesian water analysis is far superior in every way to those of the water heretofore used, and now being used in part.

So much for the analytical reports. Now for the plans of the water company. The test well put down was five inches in diameter. Another well eight inches in diameter has been drilled at a spot 50 feet from the first. It yields about the same supply as the No. 1. The company is now at work on its No. 3, and has it well down toward the rock. Casing for four additional eight-inch wells is on hand, and if the water supply holds out that number of wells will be put down. Should all these prove as good as the two now in operation, it is believed the company, under ordinary usage, will have a supply of pure artesian well water sufficient to furnish all consumers of the city. Should this come to pass the wells at the Garfield avenue station, which now supply the city in part, will not be used only in case of emergency.

This morning bottles in which to take samples from well No. 2 arrived here. The samples will be carefully taken and sent to the state chemist. Supt. Dow believes that the sample from the second well will show the same analysis as those from the first, for the reason that all the wells tap the same vein. Until the state board of health approves the water from the No. 2 well, its products will not be turned into the mains.

The same method of procedure will have to be undergone with each well the company may hereafter bring in.

R. F. D. BOXES.

Examination of List Posted in Salem Postoffice Will Interest Patrons of Service.

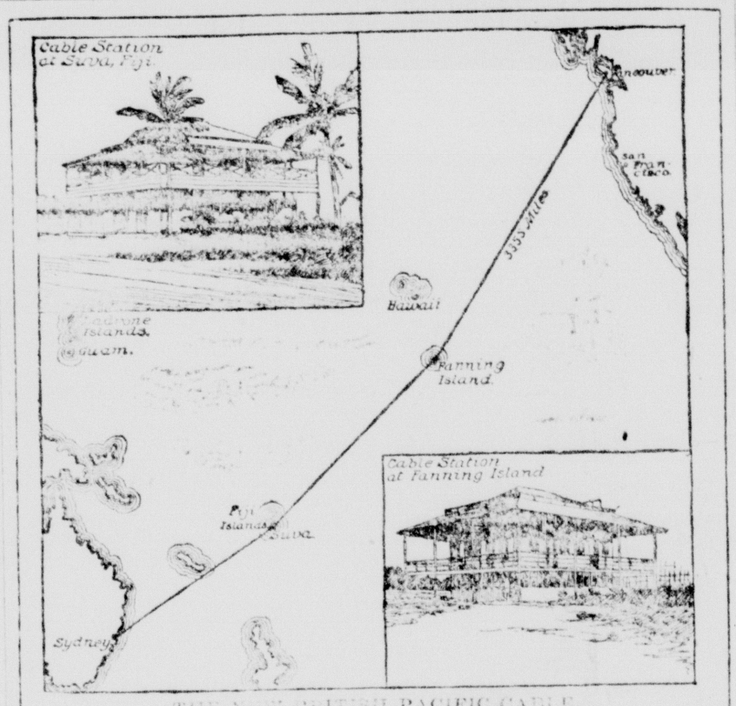
Postmaster Miles has recived a complete list of the 26 kinds of mail boxes which are approved and permitted to be used on rural mail routes. This list has been posted in the postoffice, where it may be inspected by those interested. These boxes were approved by the department up to July 9, 1902.

Until Inspector George Pate comes here in the near future to inspect the local routes it cannot be known whether or not the department will require patrons to put up the boxes specified in this list. Practically all the boxes used on the five local routes are approved and mentioned in the list, so there is no occasion for agitation over rural mail boxes.

The list states that the boxes made by the Ohio Mail Box Co of Leetonia and by the Canton Steel Roofing Co. of Canton are approved.

Definite Route Not Yet Fixed Upon.

E. R. Merrill, right of way man for the Stark Electric Railroad Co., which concern is building an electric line between this city and Canton, was in the city Friday consulting with B. M. French, who surveyed the routes from Salem to Sebring. Mr. Merrill stated that his visit was of no significance, as he merely desired to secure some data from Engineer French. He has been over the two routes surveyed between Sebring and Salem, but as yet a choice has not been made. Mr. Merrill while here also saw some local business men in regard to the line.



THE NEW BRITISH PACIFIC CABLE.

The new British cable from Vancouver, which touches Fanning island and one of the Fiji islands on its way to Sydney, Australia, completes the electric girdle around the world. This cable is the first to cross the Pacific ocean. An American cable is soon to be laid.

LOCAL STATIONARY ENGINEERS' ASSOCIATION

Take an Advance Step—Educational Committee Will Give Members Food for Thought.

The local branch of the stationary engineers' association held a regular meeting last evening. New officers were installed as follows: President, Benjamin Baird; vice president, W. A. Sharp; secretary, L. L. Park; treasurer, Paul Gabriel; conductor Henry Hess; doorkeeper, R. W. Phillips. The work of installing the new officers was condheted by the retiring president, Henry Hess.

After the installation the new and retiring presidents made short addresses appropriate to the occasion.

The association has some fine plans for the future. The new president appointed a committee, one to look after membership; one to care for the financial end and still another to work along educational lines.

The engineers feel that theirs is a calling that demands a constant acquisition of knowledge relating to the business. For this reason, and to fill the demand, the educational committee was appointed. It is the intention of this committee to have on each meeting night one or more of the members submit papers or make addresses on subjects of live interest. Last night Grant Snyder of the Buckeye, a recognized authority on the subject, made an address on the "Compound Engine." His talk was of great interest and help to the engineers. Two weeks from last night Mr. Snyder will talk on the "Indicator."

ADJUSTERS WERE HERE BUT LOSS NOT YET FIXED.

Friday afternoon insurance adjusters were in the city to adjust the loss on the stock caused by the fire at the nail mill cooper shop. The stock is owned by Greif Bros. Co. of Cleveland, and L. M. Greif, manager of the company, was here to go over the matter with the adjusters. The complete acmunt of the loss is not known yet, but insurance companies represented by M. L. Young & Son adjusted the matter at about Mr. Greif's figures. This was satisfactory to all parties. The stock that was in the fire is now released. On Monday Mr. Greif will send a man here from Cleveland to help go ver the stock.

SALEM CO.'S MINES WILL RESUME WORK

By Tuesday Next—Good News for the Plants on the Flats Where Coal Has Been Short.

Work on erecting the new tipple at the coal mine of the Salem Co. is progressing nicely in spite of the unfavorable weather. The miners will go in Monday and expect to take out a little coal. By that time enough of the tipple will be erected so that some coal can be hoisted and loaded on cars. By Tuesday it is believed the mine will be turning out coal to about its usual capacity.

The first coal to be shipped from the mines will come to Salem to relieve the famine at the shops, which, while they have managed to get along without this supply, have been seriously handicapped. It will be some time before the screens will be installed in the new tipple, and until they are none but the run of mine coal will be loaded.

The fire which destroyed the old tipple some weeks ago brought a serious loss to the company and much inconvenience to consumers in this city. It occurred at a bad time of year.

THREE FRAME BUILDINGS DESTROYED BY FIRE

Saturday Morning Fire in East Liverpool.

East Liverpool, Jan. 10.—(Special.)—Fire destroyed three frame buildings at the corner of Fourth and Washington streets at 9 o'clock Saturday morning, and did damage to the extent of $4,000, which is partially covered by insurance to the amount of $2,000. The buildings were completely destroyed.

The burned buildings were as follows: Two-story structure occupied by H. A. Kernott, tailor, as shop and living rooms; Sanford Trice's restaurant and living rooms, and the one-story dwelling of Jerry Callahan. The fire originated from an overheated stove in the kitchen of the restaurant.

Will Play Pedro.

John G. Augustine will entertain the members of the Star Pedro Club at a session to be held this evening at his home in Garfield avenue.

SAID TO BE SHORT IN ACCOUNTS.

Manager of a Local Stock Broker's Office Is Mysteriously Absent.

Tuesday evening Byron L. White, manager of the local stock broker's office at No. 13½ Broadway, conducted by W. A. Hoberdier of Canton, placed W. G. Entriken in charge of the business and left for Pittsburg. When he went away Mr. White stated that he would return in two days. He is still away and his friends have become alarmed over his continued absence.

When he went away White told Mr. Entriken to take charge of the business, and he has done so each day, opening the office at the usual hours, taking quotations and attending to such other business as might come up.

Today a story was circulated about the city to the effect that Mr. White had skipped out and that his accounts were short.

When seen at noon today C. A. White, brother of the missing man, stated that he feared Byron had gone for good. He said he did not believe Byron had $20 in his pocket when he left. Mr. White could assign no reason for his brother's disappearance.

W. G. Entriken stated that the firm's accounts are all right, and insisted that Mr. White did not beat any of the traders. He added that the office would continue to run in the future as in the past, only under some other management.

W. A. Hoberdier, owner of the office, will be in the city this evening to conduct an investigation of the affairs. The News tried to reach him at Canton by telephone at 1 o'clock this afternoon, but was unable to do so. The office has been running for some time and apparently was doing good business. It received quotations by direct wire from Canton and Cincinnati.

FARMERS IN CONFERENCE.

Eleventh Consecutive Meeting of Central Institute at Lisbon.

HELPFUL HINTS TO HUSBANDMEN.

State Lecturers Delivered Instructive Addresses—Columbiana County Attorneys as Theoretical Tillers of the Soil.

Lisbon, Jan. 10.—(Special.)—The capacity of the court room was taxed Friday afternoon and evening to accommodate the crowds in attendance at the Central Farmers' Institute. Music by the Blind Trio enlivened each of the sessions.

At the morning session Friday the state lecturers each made an address. Charles McIntyre on "Swine Feeding for Profit," and John L. Shawver on "The Orchard." L. P. Bailey read a paper on "The Farmer and the Schools."

Senator C. C. Connell, in behalf of Mayor Farrell, extended an official welcome to those in attendance in a few felicitous words at the opening of the afternoon session. He referred to the fact hat this is the eleventh successive year that an institute has been held at Lisbon, and that nearly all of them have been held in the court room. Mr. Connell said that every one present, although all were not farmers, should derive some benefit from the gathering.

At this session Mr. McIntyre spoke on the subject, "Increasing the Effectiveness of Barnyard Manure." He considered the topic from a scientific standpoint, showing the need of manure sheds if the best results are to be obtained, and explained how the fertilizing qualities may be improved by the addition of other substances.

Mr. Shawver spoke on "The Problem of Hired Help," which in many instances, he said, is one of the most difficult a farmer has to solve. One reason given by young men for their desire to leave the farm is that where they are hired hands they are not treated well. He said he did not believe this to be true in Ohio, except in a very few communities that he had found in which the farm hands were treated no better than the domestic animals, being isolated in huts away from the family and having their meals taken to them. He exploded the idea that a young man ought to work harder and longer each day on the farm than in the city.

During the general discussion of this subject, Judge S. J. Firestone of Lisbon also made a few telling remarks on the topic.

The evening session was more of a literary and musical character. C. P. Reihwell of East Palestine made the opening address, in which he advanced and well established the idea that good business sense is as requisite to the successful management of a farm as any other business.

Mr. McIntyre also spoke of the need of brains on the farm as well as in other walks of life, and Mr. Shawver dwelt on the farmer's interest in the aesthetic phase of life. Interesting features of the session were recitations by Miss Mayme Lodge and Miss Galbreath, and music by Prof. Davis and the Blind Trio.

Mr. McIntyre made the opening address at the session Saturday morning on "Feeding Farm Animals." He contended that intelligent discrimination is required in the selection of food for animals, and then went on to show the percentage of fat, blood and muscle-producing elements in the ordinary food stuffs as analyzed. When food stuffs are deficient in the requirements of the growing or fattening animals, he recommended the mixture of other ingredients.

Corn, for instance, is too rich in fat-producing elements for a growing animal. The farmer must acquaint himself with these facts before he can feed stock without loss.

Mrs. Maude Kinnear then read a paper on "Which Shall It Be?"

LAST COURT TERM MADE GOOD RECORD.

Salem Case Has Been Settled Out of Court—Other Cases.

Lisbon, Jan. 10.—(Special.)—The case of Charles E. Smith, treasurer, against the Greve Co of Salem has been settled out of court.

In the case of C. P. Leonard, sheriff, against Christie A. and Catherine Rich, leave is given to amend answer by January 12.

The divorce petition of John R. Hawke against Narcissa Hawke, in which Judge Hole refused to grant a decree of divorce the other day, has been dismissed at the plaintiff's cost.

In the case of John E. Carlisle against Thomas D. Carlisle, in which suit was brought to quiet title to real estate in Center township, a decree for the plaintiff has been entered.

The term of court just closing has been remarkable in court annals for the volume of business disposed of, the court having passed upon 182 civil cases and 267 indictments.

GREENFORD SOCIETIES ELECT OFFICERS.

CATHOLIC MISSION CLOSED ON FRIDAY NIGHT.

The Catholic Mission, which had been in progress at St. Paul's church for nearly a week, closed Friday evening, when Rev. W. S. Kress delivered a lecture on "Why People Become Catholics."

There was a large attendance to witness the closing service and the lecture was attentively listened to. Questions from the query box were answered at length.

During the mission there was a lecture by Father Kress at the church every evening since, and including Sunday. The object of the mission was to give outsiders an understanding of the Catholic church.

Father Kress left his morning for his home in Cleveland. Week after next he will go to Kelly's Island to conduct services similar to those just closed here.

M'KINLEY DAY

To Be Observed by Schools—Columbiana Boy's Thesis.

(FROM A STAFF CORRESPONDENT.)

Columbus, Jan. 10.—Gov. Nash has issued a proclamation calling upon all schools, colleges and universities of the state to observe the birthday anniversary of William McKinley Thursday, January 29, with appropriate exercises in the forenoon at their respective buildings.

The thesis subjects of those who will receive degrees from the Ohio state university in June have been announced. W. N. Bomsberger of Columbiana, who is a member of the graduating class, will write a thesis on "Bee Hive Oven Coking Plant for Coking No. 8 Coal of West Virginia."

WILL BUILD POWER PLANT.

One of the Improvements Buckeye Engine Co. Contemplates.

OTHER ADDITIONS WILL COME SOON.

Ground Occupied by Boiler House Needed for Other Extensions—Matter of Power for Big Plant Will Be Revolutionized.

It is reported on good authority that the Buckeye Engine Co., the largest manufacturing concern of Salem, which made big additions to its plant last year, will keep up the good work during the year now begun.

Among other improvements planned by the company is the erection of a mammoth power plant on the vacant lot at the corner of Broadway and Etna streets. This land is owned by the company, and is conveniently located to the main plant.

The company needs the room now occupied by its engines and boilers for machinery of another pattern, necessary for building its product, the celebrated Buckeye stationary engine. The plan now on hand is to equip it with two large cross-compound engines. Each engine will be attached to a big electric generator. From the latter motors, placed about the shop, will get electricity to convey the necessary power to shafting. It is possible that motors will be used exclusively about the shop. A number of these are now used, and it is said they give better and more economical results than the old way of furnishing power to shafting by belts direct from the main engines.

After the new power house is in working order the plan is to remove the old engines and boilers, which are now located near the center of the works, and devote the room occupied by them to other uses.

SLIGHTLY INCREASED IN NUMBER WERE FAILURES

In 1902 as Compared With 1901, Although Decreased as Compared With Ten Year Period.

The first weekly review of 1903, issued by R. G. Dun, received here, contains some interesting information.

The review shows the commercial failures in the United States during the year 1902 were 11,615 in number, and involved $117,476,769 for defaulted liabilities. This is a slight increase as compared with the 11,002 failures in 1901 for $113,002,376, but shows a gratifying decrease from the average for the preceding ten or even fourteen year period. In manufacturing there were 2,749 failures for $47,[illegible]889, against 2,441 in 1901 for $44,[illegible]983; trading defaults numbered [illegible] with liabilities of $56,081,48[illegible] as compared with 7,965 for $52,[illegible]. 1901; other commercial [illegible] properly included in either [illegible] leading classes, were 617 [illegible] and $14,206,400 in amount. A SLIGHT MISUNDERSTANDING.

The Cincinnati Times-Star, in a well-timed editorial on the gubernatorial situation, says:

"There seems to be a disposition among nearly all the papers outside of Ohio, and quite a number within the state, to view the recent conference at Cleveland in an unnecessarily false light—as an effort to supplant the work of the Republican state convention. As the Times-Star pointed out, although there was necessarily some state significance, the conference grew almost entirely out of local conditions existing in Cleveland. The factions of the Republican party in Cuyahoga county united upon the proposition that they urge and indorse the candidacy of Myron T. Herrick of that city for the Republican gubernatorial nomination, and they asked that he secure the indorsement of Senator Hanna. Not alone because he is the candidate of the Republicans for election to the senate by the general assembly to be elected this fall, but because of his close relations with the various county Republican organizations, it was deemed fit by the united Cuyahoga Republicans to ask Mr. Herrick to secure his indorsement.

"As Major Dick, who had been the lieutenant of Hanna, and was in as close touch with political organizations of the state as the senator himself, was a candidate for the same position, this move might have resulted in an embarrassment to Mr. Hanna—he might have had to choose between a personal friend and also the choice of his home county and a trusted lieutenant, who had done him yeoman service in many hard fought battles. The Cleveland conferences were merely discussions of these phases between the men most interested. As a result of these friendly discussions Congressman Dick removed any possible cause for embarrassment between Senator Hanna and the Republicans of Cuyahoga county by issuing his statement. He did not ask that his old superior choose between the two; he eliminated himself, temporarily at least, from the race, and gave his chief competitor the prestige of having the united support of Cuyahoga county and of Senator Hanna in the Republican state convention.

"The result will be a great improvement in the conditions of Cuyahoga county—much of the old factionalism there should be eliminated. It will go a great way toward enabling the restoring of that condition of harmony in Cleveland which should result in the overthrow of Johnson in the April election, and whether Mr. Herrick be the state standard bearer or not in the fall should help carry the county for the Republican party and seat a Republican delegation in the legislature. Those who refuse to believe that the Republican convention will not select its gubernatorial candidate do not know the Republicans of the state, or are misrepresenting them. Mr. Herrick may be the gubernatorial candidate—he is a man most worthy of the high office—for with the indorsement of the Cuyahoga delegation and the support of Senator Hanna he will possess a great political strength in the state convention, but still the convention will decide. Both Senator Hanna ad Mr. Herrick would be the last to either believe or assert otherwise."

BEAUTIFUL WOMEN WHO USE PE-RU-NA.

HEALTHY WOMEN

Praise Pe-ru-na as a Cure and Preventative of Catarrhal Disorders.

Miss Elizabeth Uber, No. 67 Bassett street, Albany, N. Y., writes:

"I have always dreaded the fall and winter because of my extreme liability to catch cold, when catarrhal trouble would quickly develop through my entire system which it would take weeks to drive away. I am thankful to say that since I have taken Peruna, I do not have any reason to dread this any more. Last fall when I suffered with my old trouble I took Peruna and in nine days was completely cured and since that time, if I have been at all exposed to the damp, wet or cold weather, I take a dose or two of Peruna and it throws out any hint of sickness from my system. I gladly indorse it."—Miss Elizabeth Uber.

Mrs. Wm. Dewey, Saranac Lake, N. Y., is second cousin of Admiral Dewey. In a recent letter she says:

"Peruna is the most valuable of any remedy that I have ever used for coughs, colds, etc. I cheerfully recommend it as a certain cure if used according to directions."—Mrs. Wm. Dewey.

Miss Rosa Gerbing, a popular society woman of Crown Point, Ind., writes:

"Last winter I took a long drive in the country, and being too thingly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am pleased that I did for it brought speedy relief. It only took two bottles and I consider this money well spent.

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rosa Gerbing.

To neglect a cold is to invite chronic catarrh. As soon as anyone discovers the first symptoms of catching cold he should at once begin the use of Peruna according to directions on the bottle, and the cold is sure to pass away without leaving any bad effects.

Unless this is done the cold is almost sure to end in the second stage of catarrh which is making so many lives miserable. If Peruna was taken every time one has a cold or cough chronic catarrh would be practically an unknown disease.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

DUN'S TRADE REVIEW

Collections Notably Prompt, Testifying to Strong Financial Position of Industries.

FUEL THE DISTURBING ELEMENT

Inadequate Supply of Coal and Coke Retarding Operations in All Industrial Lines—Much New Business Coming Forward in Iron and Steel.

New York, Jan. 10.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, says in part:

Collections are notably prompt at all leading centers, bearing testimony to the strong financial position of the nation's industries at the opening of the new year. Distributing of merchandise is heavy and manufacturers are pressed for prompt delivery. Orders for spring goods come forward freely and in many lines there is more than a sample business in fall weights. Tardy deliveries in the past lead purchasers to anticipate requirements more than heretofore, and orders are being placed far in advance of actual needs. The fuel situation is still the one seriously disturbing element, rendering abnormally high the cost of manufacturing and restricting the purchasing power of almost the entire population. Fortunately this comes at a time of exceptional prosperity, or there would be a general contraction of consumption in other lines. There is little interruption to work because of labor disputes, but many operations are interrupted by the delay in transit of needed materials. Railway freight rates were advanced, and one result will be a loss of exportation from eastern cities, the traffic being deflected to New Orleans.

Operations Retarded.

In the iron and steel industry the most significant event of the week was the discussion regarding the profit-sharing proposal by the leading producer. Inadequate supplies of coke are still retarding operations. Contracts for the new year were made at $4 a ton, but prompt deliveries often command $6 or $7, and Atchison sales were reported at $10. Pig iron continues scarce, prices generally advancing during the past week, and the expected advance of $1 a ton was made in wire products. Much new business has come forward, especially in bars and sheets, which had been comparatively quiet, while there is a vigorous demand for structural material to be used in bridge work and car shops. Another year of unprecedented activity in this industry is confidently anticipated. Partially because of the published statistics of supplies, but more on account of London speculation, there was a sharp advance in prices of tin and copper, followed by some reaction due to realizing sales.

No new features have appeared in the domestic demand for dry goods. As to woolen goods the demand for overcoatings for next fall has not come up to expectations, which may be attributed in part to the fact that the season opened unusually early. Prices are fully maintained at the opening level of the season.

Failures for the week numbered 350 in the United States, against 375 last year, and 24 in Canada, compared with 37 a year ago.

EAR BITTEN OFF BY VICIOUS COLT.

While Hamilton Howell of this city was at his farm east of Salem Friday morning he exhibited a fine 3-year-old colt to a friend. The animal, in a playful mood, reached over the manger and nipped a large part of the owner's right ear off, making a painful wound, which will disfigure the man.

Mr. Howell's wound bled profusely, and he was brought to the city, where Dr. O. A. Rhodes rendered the necessary surgical attention. Nearly the entire upper half of the ear was amputated by the colt's sharp teeth.

WORTH KNOWING

At This Season of the Year.

Any cough accompanied by expectoration which lasts over three or four days, requires attention and treatment; this does not mean a visit to a hospital, nor to your physician nor wholesale drugging with patent medicines; but it means that some simple, harmless, effective antiseptic remedy like Stuart's Catarrh Tablets should be used to ward off any possible termination in pneumonia, chronic catarrh, bronchitis or consumption.

All of these formidable diseases start from a common cold, neglected or allowed to run its course, and it is only the exercise of common every day caution to cure a cold as quickly as possible, not so much for what it is at the moment, but what it may become if neglected.

Perhaps no remedy is so safe, reliable and convenient to stop a cold or obstinate cough as Stuart's Catarrh Tablets.

The extract of blood root contained in them, combined with the red gum of the eucalyptus tree, seem to put the mucous membrane of the nose, mouth and throat in a condition to throw off the germs of catarrh, bronchitis and consumption, and as they are taken internally they seem to equalize the circulation and place the body in that condition of health which resists and throws off the germs of disease.

A person in perfect health rarely catches cold, and if he does, throws it off in a day or two, but where the cold hangs on, stopping up the nostrils, irritating the throat or there is persistent annoying cough, it is evident that the system for some reason is unable to throw off the disease germs which cause the trouble; a little assistance is necessary, and this is best given by the use of some harmless germ destroying antiseptic like Stuart's Catarrh Tablets, which are also palatable and equally so for children and adults.

Druggists sell these tablets at 50 cents full sized package, higher in price than troches and cheap cough syrups, but Stuart's Catarrh Tablets contain antiseptic properties which actually cure colds, catarrh and throat and lung troubles, while it is a notorious fact that cough drops and cough syrups are largely composed of opium, cocaine and similar drugs that have no curative power.

It is also true that many popular liquid medicines and tonics for catarrh depend upon the alcohol they contain, which give simply a temporary stimulation of no real benefit for any trouble, catarrhal or otherwise.

As Good as a Compass.

The compass plant of Asia Minor, known all along the eastern shores of the Mediterranean and as far east as Arabia and Persia, is mentioned in the Bible, where the prophet refers to "that senseless thing which is more stable than man, inasmuch as it always pointeth in the one direction." It is an annual shrub, much resembling our wild or false indigo, but with all the branches arranged along its stem on the north side. It is of the greatest value to travelers of those regions, who use it with as much assurance of being carried aright as does the seaman his mariner's compass, constructed on the latest scientific principles.

Hard Luck.

A Texas man's cotton was eaten by the boll weevil and his corn destroyed by the drought. His only daughter eloped with a vagabond and his son followed the circus. On top of this his wife gave birth to triplets. He committed suicide by the rope and rafter route, and the coroner very properly returned a verdict of justifiable homicide.—Hallettsville Herald.

Something Lacking.

Bobby was seven. He was examining with critical eye the new arrival in the family and showing some signs of displeasure with the shiny head and toothless gums.

"Well, Bobby," asked the nurse, "how do you like your new brother?"

"Pretty well," was the answer, "but he's not finished yet."—Brooklyn Life.

Willing to Wait.

"What are you going to do when you get to be a man?" asked the visitor.

The little fellow's face assumed an expression of earnest gravity as he responded, with a voice which was evidently shaken by sad memories of the past, "Whip papa."

TRIEM & MURPHY, THE BARGAIN OUTFITTERS.

Cuban Music.

Cubans show a semisavage preference for such music as is made by a sort of band composed of a stamp mill sort of a crank piano, a pair of sugar kettle tomtoms and a gum with a horseradish grater called a "giro" and a flat file with which to scrape it, the combined outfit producing a discordant potpourri that might easily dislocate the teeth of any self respecting hand-saw. This example of music, as the Cubans fancy it, is even worse than the finger drumming and wire snapping musical murders committed in Tunisian bazaars and Algerian cafes chantantes. The lauded but ingubrious Cuban national hymn is best esteemed when performed by one of these bands of inharmonic banditti, and the national dance, that monotonous combination of motions that suggests that the dancer is trying to shoo a flea off the small of his back and also go easy on a stone bruised heel, can only be adequately performed to the music of those African agitators of catgut, rawhide and perforated tin. The truth is the Cubans will have to learn music all over again.

Babies.

A baby is born at every beat of the human heart. That is more than one for every tick of the clock. These "living jewels" (as the poets call babies), "dropped unstained from heaven," take wings and fly back whence they came one for every minute of the day. From Jan. 1 to Dec. 31 between 38,000,000 and 40,000,000 living jewels are dropped into this cold world.

There are more baby girls than boy babies. The proportion of female births to male births is as 100 to 90. So that between 2,000,000 and 3,000,000 more girls are born in the world each year than boys. There is always a surplus of women, and the extra number of girl babies keeps up the supply.

The rate of infant mortality is enormous. In round numbers, 5,000,000 babies never live long enough to talk, 5,000,000 more never have a chance to walk or run and 5,000,000 more never get old enough to go to school.

How a Snake Swallows a Frog.

The method of swallowing is a very simple one, although if the frog be large more than half an hour may be consumed in the process. The two bones of the lower jaw are separate and capable of independent movement, so the reptile loosens its hold upon one side of its jaw and pushing that side forward as far as possible it drives the teeth in again and draws the jaw back to its original position.

The result is that the prey is drawn down by the movement. The process is then repeated by the other half of the jaw, thus inevitably forcing the victim inward. The snake's skin stretches enormously, and the jaw is of course dislocated, but the extensible ligaments hold the bones together.

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all that they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. You can get this reliable remedy at M. S. Hawkins'.

To Extend Western Maryland.

York, Pa., Jan. 10.—It was learned here yesterday that an agent of the Gould railway interests has been engaged the last two months in buying options for a right of way for the extension of the Western Maryland railroad from this city to the Susquehanna river. The negotiations for the land have been conducted by [illegible] Gallatin, late Democratic candidate for county treasurer. Mr. [illegible] yesterday confirmed the report, saying that he concluded [illegible] Thursday and two routes had been secured. These routes will [illegible] river nearly opposite Marietta, Lancaster county. It is said here that it is the intention of the Gould [illegible] to build a line to New York from the York terminus of the Western Maryland railroad.

Philadelphia Accepts Carnegie's Gift.

Philadelphia, Jan. 10.—Andrew Carnegie's offer of $1,500,000 for the erection of 30 branch library buildings in this city was yesterday formally accepted by the board of trustees of the Philadelphia free library. A committee was appointed to prepare papers to present to the councils and Mr. Carnegie, and to ascertain the proper [illegible] of purchase before the municipality can take advantage of the gift. This committee will probably complete their work within two weeks. Mr. Carnegie, in a letter to John Thomson, librarian of Philadelphia free library, suggests that $50,000 be expended in the construction of each branch library.

Withdraws Suit.

New York, Jan. 10.—Announcement was made yesterday that the suit brought by Mrs. Virginia Heinsen, half sister to Jacob S. Rogers, to test the validity of Mr. Rogers' will, which bequeathed his entire residuary estate, amounting to about $6,000,000, to the Metropolitan Museum of Art, had been withdrawn. This, it is said, removes the last obstacle in the way of the transfer of the bequest to the trustees of the museum.

McKinley Memorial Arch.

Columbus, O., Jan. 10.—H. A. MacNeil, a sculptor, formerly of Chicago, but now of New York, was selected yesterday to design the McKinley memorial arch to be erected at the entrance to the capitol grounds in Columbus. The memorial will cost $50,000, the expense being borne equally by the state and citizens of Columbus.

Not Authorized by Law.

St. Paul, Minn., Jan. 10.—The supreme court yesterday held that a bequest for masses and education of priests is a trust not authorized by law in the case of William Sheehan and Bridget Walsh against James C. Kelley and others, appealing from the district court of Houston county.

Pennsylvania Monument in Place.

Chattanooga, Tenn., Jan. 10.—The Pennsylvania monument at Chickamauga park to the Seventy-third regiment Pennsylvania volunteers was put in place yesterday. It is located on Missionary Ridge, where the assault on Nov. 25, 1863, was made.

Governor Nash's Proclamation.

Columbus, O., Jan. 10.—Governor Nash issued a proclamation yesterday calling upon the people of Ohio to observe Jan. 29 with exercises in all schools, colleges and universities commemorative of the sixtieth anniversary of McKinley's birth.

Reading's Coal Run.

Reading, Pa., Jan. 10.—The daily coal run on the Reading company's main line this week averaged between 1,500 and 1,600 cars. It is expected that the output of the company's mines for the week will aggregate 270,000 tons.

Miss Rose Owens.

"If every suffering woman has the same experience with Wine of Cardui that I had, your medicine will be most popular. About a year ago I began to have a worn out tired feeling with lassitude, pains in the back and head which kept increasing every month. I felt that I needed something, but to get the right medicine was the trouble. I finally decided on your Wine of Cardui and only needed to take three bottles when I was fully recovered."

WHEN Miss Rose Owens, who has a responsible position in the Government service at Washington, D. C., decided to try Wine of Cardui, she made a wise choice. Over a million women have been relieved of female weakness by this same Wine of Cardui. It is not a strong medicine but may be taken every day in the year by any woman with benefit. It does not force results, but corrects derangements of the menstrual organs. It strengthens the nervous system, gives tone to the bodily functions, acts directly on the genital organs, and is the finest tonic for women known to the science of medicine.

If you are a suffering woman we would say that Wine of Cardui fails to completely cure any case of female ills [illegible] emphatically, it never fails to benefit. Every day hundreds of sufferers are writing to our Ladies' Advisory Department. The letters are opened by persons competent to give advice. Mrs. Jones was cured by [illegible] ing the advice which was freely given her by the Ladies' Advisory Department. Miss Owens was cured by the same advice by just buying a bottle for cash [illegible] taking this great remedy in the privacy of her home to the extent in its shipment, examination, treatment as much as possible necessary. Wedding Anniversary Observed.

Mr. and Mrs. W. D. Casselberry of McKinley avenue on Friday observed the thirty-first anniversary of their marriage. In commemoration of the event a very pleasant stag dinner party was given at 6 o'clock in the evening at their pleasant home.

A party of 11 of the gentleman friends of Mr. Casselberry was invited in, and at 6 o'clock a very fine dinner was served in the dining room. The table was elegantly arranged, the effect being carried out in pink and white. The waitresses were attired in white, and the general effect was very pretty. Each guest received a neat stickpin as a souvenir of the party. During the dinner each guest was also given a small cake, in the center [illegible] of which was worked [illegible] pink and white. Hymeneal.

Edward S. Russel and Anna C. Aten, both of Wellsville, have been licensed to marry.

William Foster and Miss Daisy Rosenbaum, both young people of East Palestine, were married by Mayor W. J. Foley.

Robert Green, who has been employed as a coater at the nail mill at Sharon, Pa., is here for a visit of a few days with relatives and friends. He will go to Chicago this week, where he has secured a position as porter with the Pullman company. His run will be between Chicago and Pittsburg.

Hugh Wright and guest, George Foote, returned to the Soldiers' home at Sandusky this forenoon after spending a short time at the home of Mr. Wright, near the city.

Mrs. Anna Metzger of Rochester, Pa., who has been here on a visit to her sister, Mrs. William Hensillwood of Ellsworth avenue, returned to her home today.

Mrs. Adda Whitten is arranging to give an invitation dance at the Calumet assembly rooms next Wednesday evening.

Mrs. Nellie France spent the day as the guest of her daughter, Mrs. Bertha Duerden, at Leetonia.

Miss Helen Murphy of Depot street is visiting at Pittsburg for a few

DEATH RECORD.

John P. Smith.

Mrs. B. W. Havnar of East High street was called to Harrison county today by the death of her aged father, Joan P. Smith, which occurred Friday after a year's illness. Mr. Smith was nearly 81 years of age, and for a year past has been in poor health. He is survived by nine children, most of them living in Harrison county. The funeral will take place Monday.

SUPPLYING THE TOWNS WITH FIREMEN'S APPLIANCES.

A. L. McKenzie of Cleveland, representing the Consumers' Rubber Co., which sold the city of Salem 1,000 feet of fire hose last summer, arrived in town Friday morning from Washingtonville. He has been doing some rushing business recently in the way of selling the latest type of air compressor chemical fire engines to small towns in this vicinity.

Thursday evening Mr. McKenzie met the Washingtonville council in special session and sold that place a chemical engine. He also sold one at Rogers at Lowellville. Beloit recently bought one of these engines from Mr. McKenzie. Thursday evening the gentleman went to Beloit to make a test of the engine sold there.

The machines are made by the Racine Manufacturing Co., and sold by the Consumers' Rubber Co. Mr. McKenzie's concern also sells hook and ladder trucks and ladders. As Salem is in the market for a new truck he will submit prices.

THE COWBOY AND THE LADY

And The Great White Diamond---Two Fine Attractions Next Week.

Memories of the triumps on the stage of the late Wm. J. Florence, affectionally known as Billy Florence, at one time America's greatest comedian, will be revived by the theater goers who attend the performance of "The Cowboy and the Lady" at the Opera House next Monday night. Josephine Florence Shepherd, the only daughter of Billy Florence, has been engaged to play the part of "Prissims" in the clever Clyde Fitch comedy in which S. Miller Kent will star this season. Miss Shepherd is said to be a comedienne of decided ability, having inherited the rare unction and charming

S. Miller Kent as Teddy in "The Cowboy and the Lady."

humor of her celebrated father. When you see Miss Shepherd in the part of the irrepressible "Prissims", it is said that you can almost distinguish the voice, the manner and the art of him whose talents as Hardwell Slote in "The Mighty Dollar", Captain Cuttle in "Dombey and Son", and Sir Lucius O'Trigger in "The Rivals", made men and women laugh and cry in the fashionable theaters of New York and the entire country. Mrs. Florence of course, too, was known as a fine actress and a delightful woman. It is, therefore, not to be wondered at that Josephine Florence Shepherd is considered the best player of the part of "Prissims", which is a very important one in the artistic ensemble of the characters in "The Cowboy and the Lady."

"The Great White Diamond" which comes to the Opera House Friday evening, January 16th, is from the pen of the well known author, Walter Fessler. The play is of remarkable merit and contains all the elements of success—namely a magnificent scenic production, marvelous mechanical effects, excellent comedy, first class specialties, an entirely new and original stage villain and a story of great heart interest. The play is in four acts and ten scenes. This production has appeared in all the large cities throughout the United States and Canada and the Press, without an exception, have conceded it to be one of the strongest and most original melodramas ever produced. The company has been selected with care and the entire production is under the personal direction of the author.

TEXAN IS CRITICAL.

Mr. Russell Thinks Too Many Private Pension Bills Have Been Passed by House.

AGREED ON ANTI-TRUST BILL.

Sub-Committee of House Judiciary Committee Will Report on Lines Covered by Administration Suggestions—Michigan Beet Sugar Men.

Washington, Jan. 10.—This was private pension day in the house and 141 bills were passed none of especial importance. Mr. Russell (Texas), the successor of the late Mr. DeGraffenreid, criticised the house for undue haste in the consideration of private pension legislation and precipitated quite a debate. He called attention to the fact that since the Civil War 10,000 special bills had been passed by congress, over 1,000 of these in the first session of the present congress.

At 4.05 the house adjourned until Monday.

Anti-Trust Bills.

As a result of extended consideration of the various pending anti-trust bills the sub-committee of the house judiciary committee, of which Representative Littlefield is chairman, has practically agreed on an anti-trust bill. It has not yet been adopted formally, but it is said to meet the approval of all members of the sub-committee. It is understood that it provides for publicity, not through a new commission to be created, but through the interstate commerce commission. It is further understood that the bill covers administration suggestions for anti-trust legislation.

The anti-trust bills introduced on Thursday, which were drawn by the attorney general, will go to the judiciary committee under the general rule adopted at the time the sub-committee was created.

The house judiciary committee yesterday agreed to favorably report the bill introduced by Representative Littlefield to expedite suits pending or hereafter to be brought under the anti-trust law.

Michigan Beet Sugar Men.

Messrs. W. S. Humphrey, H. H. Hatch and James G. McPherson, representing the beet sugar interests of Michigan, held a conference yesterday at the committee room of Senator Burrows, for the purpose of deciding on a course of action with reference to the Cuban reciprocity treaty. After the meeting they announced that they had decided to wait until after the committee on foreign relations should make its report on the treaty before deciding on a line of action. They expressed themselves in somewhat skeptical terms as to the possibility of securing any substantial guarantee that there would be no reduction for the next five years beyond the 20 per cent provided for the treaty, saying that their principal fear lay in the operation of the clause which protects Cuban sugar to the extent of 20 per cent over all other sugars.

The gentlemen said they had made no canvass of the senate and would make none until after the committee should report.

Congress Investigating.

Congress seems determined to get at the bottom of the coal hold-up. An investigation has been begun in the senate and Monday the wheels of legislation will be set going in the house, and the committee on merchant marine and fisheries will be empowered to immediately begin an investigation as to the cause of the coal famine. It is likely that President Baer of the Reading, will be called upon to tell what he knows of the situation.

Meeting of Cabinet.

For nearly two hours yesterday the cabinet was in session, all the members except Secretary Root, who is in New York, being present. Secretary Hay had little new to report on the Venezuelan situation. No answers have been received to the latest proposition of President Castro, which was transmitted promptly to the allies.

Satisfaction was expressed at the action taken Thursday by the representatives of the American Beet Sugar association, although regret was expressed that the action was not unanimous.

The Indianola (Miss.) postoffice case was again the subject of some consideration, but Postmaster General Payne had little in the way of developments to communicate.

One Killed, One Injured.

Pittsburg, Jan. 10.—While they were walking on the Pittsburg, Virginia and Charleston tracks at Jones station yesterday morning a train plowed through a group of six miners. Henry Hess, 47 years old, of Jones station, was instantly killed, and Herbert Wilding, 35 years old, was slightly injured. The others jumped down the embankment and saved themselves.

Held to Grand Jury.

Shane, O. Jan. 10.—George Worthington, who Thursday shot and killed his brother, Alex, the result of a quarrel over a poker game, and escaped, surrendered to the authorities yesterday, and at a preliminary hearing was held to the grand jury in $1,500 bond.

Million Dollar Mortgage.

Toledo, Jan. 10.—A mortgage for $1,000,000 has been placed on the Maumee Valley Railway company in favor of the Morton Trust company, of New York.

TRIFLING WITH YOUR HEALTH

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians prescribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the ***New 50 Cent Size*** and the regular $1.00 size bottles—less than a cent a dose.

Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N.Y.

Cambronne and His Needle.

The famous General Cambronne had a talent not rare in the French army. He knew how to use a needle. I knew an old lady who preserved with care a Brittany costume he made her for a fancy ball. She spoke of it as a beautiful fit at the time he measured her for it. The ornamental stitching on the corsage and apron formed designs invented by the general as he stitched, though he was of an age when the inventive faculty is dull. "What should I do to prevent tedium killing me," he once said in the hearing of this lady, "were it not for my needle?" He had little book education and never had any taste for reading. He was too sober to seek liveliness in drink, and too good a citizen to seek to play a part as a politician. He also had a loom with which he wove tapestry and furnished some beautiful things to his relatives.—Paris Cor. London News.

An Enduring Record.

Standing side by side in an old Long Island cemetery are four tombstones. They commemorate the virtues of the successive wives of one of the town's inhabitants. A peculiar thing about the monuments is that not alone do they perpetuate the memory of each of his helpmates, but they serve as a sort of financial barometer to record the husband's rising fortunes.

The first wife had a modest little headstone. The second wife's memorial was on the same order, but it was at least two feet taller. The third wife differed both as to style and size, being greatly superior to either of the others, while to the fourth and last was granted the distinction of a granite shaft.

PRESIDENT ROOSEVELT WILL GREET ENDEAVORERS.

Boston, Mass., Jan. 9.—The twenty-second anniversary of the formation of the first young people's society of the Christian Endeavor, February 2 next, will be celebrated by 4,000,000 members in all parts of the world, according to the expectations of the officers of the United Society of Christian Endeavor.

The Christian Endeavor World has received the following message from President Roosevelt, written for Christian Endeavor day, and it will be read during the celebrations:

White House, Washington.

Young People's Society of Christian Endeavor:

I greet you and wish you well. Your body stands prominent among the organization which strive toward a realization of inter-denominational and international Christian fellowship, as well as among those which stand for ideals of true citizenship; that is, for the cultivation, not alone of a high standard of civic and social righteousness, but of the strength, courage and common sense necessary for living up to such a standard. With all good wishes.

THEODORE ROOSEVELT.

The Rabbits Came to Town.

Evidently not all the rabbits were killed during the open season for hunting last fall. The recent cold snap has caused the rabbits to "hold up" and diet themselves. Friday night came off clear and rabbits ran everywhere, even inside the city limits.

This morning rabbit tracks could be seen in the heart of the business district of the city. In the outskirts of the city bunny held high carnival last night, as tracks in the snow this morning indicate.

Farmers fear that as the snow is deep enough to keep rabbits from the ground, they will take to gnawing trees, and thereby occasion serious loss.

Visited the Pottery.

Two large bobsleds, containing a party of about 50 of the pupils of the public schools of Winona, in charge of the teachers of the district, came to the city this afternoon for the purpose of visiting the pottery of the Salem China Co. For most of the young people in the party this was a first visit to an establishment of the kind.

Was in the Wreck.

Miss Anna F. Beall, a Pittsburg music teacher who has a class in Sebring, was one of the passengers on the Cleveland flyer when it telescoped a freight train at Garfield three weeks ago. Miss Beall was thrown between two seats by the shock of the wreck, and was pinioned in such a manner as to cause difficulty in releasing her. Since the wreck she has been quite ill, and now complete nervous prostration is feared.

Completed Their Work.

Charles Keim and F. K. Hatch of Wooster and James Darcy of Pittsburg, who have been here for nearly three weeks placing the thermograph in the High school building, left for their respective homes this afternoon. They completed the work of installing the apparatus today and gave it a test, which was satisfactory.

PERSONAL MENTION.

Mr. and Mrs. J. J. Johnson of Cantor, who have been visiting for a few days at the home of Harry Bardin Salem, have gone to Allegheny for a visit to friends.

T. M. Van Der Veer returned this forenoon from a business trip to Youngstown. He is a little under the weather, and during his absence was threatened with an attack of pneumonia.

Alliance Review: William Bumbaugh of Salem has accepted a position with the Morgan Engineering Co. He has moved his family to the corner of High and Liberty streets.

Miss Bessie Fisher of the Postal telegraph office will go to Alliance this evening to attend the opera, "The Aeroplane," which will be given there this evening, and also to spend Sunday with her parents.

Elected Directors.

The Peoples Savings and Loan Association of Leetonia has elected the following directors for the coming year: C. E. Greenamyer, Alexander Rankin, J. R. Morgan, S. M. Garlach, David Rankin, W. E. Neff, G. J. Wiedmyer and John Sculley. These directors have elected the following officers: S. M. Garlach, president; David Rankin, vice president; C. E. Greenamyer, secretary; Alexander Rankin, treasurer. The report of the secretary showed that the year just closed was the most prosperous in the company's history.

Will Increase Capital Stock.

The Deerfield Water Co., at its annual meeting of stockholders, voted to increase the capital stock to $100,000. Something less than a year ago a flow of triple bicarbonate mineral water was encountered in the Deerfield mine of the Hutson Coal Co., which on analysis proved to possess very valuable medicinal qualities. A company was organized, and a building 30x173 feet is about to be erected for handling the product. The location of the mine is one half mile east and a quarter mile south from Deerfield center.

Finds Way to Live Long.

The startling announcement of a discovery that will surely lengthen life is made by Editor O. H. Downey of Churubosco, Ind. Readers of The Pittsburg Dispatch Made Happy.

The New Year's number of the Pittsburg Dispatch was a great treat to its many readers. It consisted of 32 pages (just think of it!), containing a complete resume of events of 1902, accurate and reliable. It was not only of interest to the hundreds of thousands of Dispatch readers in the Pittsburg territory, but invaluable to all, no matter where, for it was a ready reference to thousands of useful and interesting items. Undoubtedly it was the best number of its kind ever published, and one which could be issued only by one of the greatest journals in the United States.

No wonder The Dispatch enjoys the largest circulation of any Pittsburg paper! It is the only 2c morning paper published in that city, and that partly accounts for its wonderful popularity. The people know it pays to buy the best, and it holds good with The Dispatch, for very few think of the trifling 4 cents difference (the daily being only 10c by the week).

Those who are not now taking The Dispatch should at once subscribe, as they will not regret it. When you do subscribe ask Reno & Co. to send and get you a copy of that great Review Edition. It alone is worth the price of a six months' subscription.

Pittsburgers should be proud of their great paper. It

Home Duties

The real heroines of every day are in our homes. Frequently, however, it is a mistaken and useless heroism.

Women seem to listen to every call of duty except the supreme one that tells them to guard their health. How much harder the daily tasks become when some derangement of the female organs makes every movement painful and keeps the nervous system unstrung? Irritability takes the place of happiness and amiability; and weakness and suffering takes the place of health and strength. As long as they can drag themselves around, women continue to work and perform their household duties. They have been led to believe that suffering is necessary because they are women. What a mistake!

The use of **Lydia E. Pinkham's Vegetable Compound** will banish pain and restore happiness. Don't resort to strong stimulants or narcotics when this great strengthening, healing remedy for women is always within reach.

FREE MEDICAL ADVICE TO WOMEN.

If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

For proof read the symptoms, suffering and cure recited in the following letters:

"DEAR MRS. PINKHAM:—I wish to express to you the great benefit I have derived from your advice and the use of **Lydia E. Pinkham's Vegetable Compound.** My trouble was female weakness in its worst form and I was in a very bad condition. I could not perform my household duties, my back ached, I was extremely nervous, and I could not eat or sleep, and the bearing-down pains were terrible. My husband spent hundreds of dollars to get me well, and all the medicine that the doctors prescribed failed to do me any good; I resorted to an operation which the physician said was necessary to restore me to health, but suffered more after it than I did before; I had hemorrhages of the womb that nothing could seem to stop.

"I noticed one of your advertisements and wrote you for advice. I received your reply and carefully followed all instructions. I immediately began to get stronger, and in two weeks was about the house. I took eight bottles of **Lydia E. Pinkham's Vegetable Compound** and continued following your advice, and to-day I am a well woman. Your remedies and help are a Godsend to suffering women, and I cannot find words to thank you for what you have done for me."—MRS. LOTTIE V. NAYLOR, 1328 N. J. Ave., N.W., Washington, D. C.

"DEAR MRS. PINKHAM:—I write to tell you what **Lydia E. Pinkham's Vegetable Compound** has done for me.

"I was suffering with falling of the womb and could hardly drag about, but after taking five bottles of **Lydia E. Pinkham's Vegetable Compound** I was completely cured. I am now a well woman and able to do all my [illegible] I recommend your medicine one of the best remedies in the world."—MRS. J. M. LEE, 141 Lyndal St., New Castle, Pa.

"DEAR MRS. PINKHAM:—**Lydia E. Pinkham's Vegetable Compound has done a great deal for me.** I suffered so much from falling of the womb and all the troubles connected with it. I doctored for years with doctors and other remedies but received only temporary relief.

"I began taking your medicine, and had not taken it long before I was feeling better. My husband said that I should keep right on taking it as long as it gave me relief from my suffering, as I could not expect to be cured by one or two bottles. I did so and am now able to be on my feet and work hard all day, and go to bed and rest at night. Thanks to your Vegetable Compound I am certainly grateful for the relief it gave me. It is the mother's great friend. I would not be without it in my house, for when I feel tired or out of sorts I take a few doses and feel all right.

"I would recommend your medicine to all tired mothers, and especially those suffering as I was."—MRS. R. F. CHAMBERS, Bennet, Neb.

Defeated for Re-Election.

Hazleton, Pa., Jan. 9.—Thomas Duffy, of McAdoo, president of the United Mine Workers of the seventh district since the establishment of the organization here six years ago, was defeated for re-election yesterday by William Dottery, of Nuremburg, a member of the district executive board. P. D. Gallagher, of Freeland, a member of the national executive board, was [illegible]

Inward and Outward.

The inward effects of humors are worse than the outward. They weaken all the organs, inflame the mucous membrane cause catarrhal troubles, and endanger the whole system.

Hood's Sarsaparilla eradicates all humors and cures all their effects.

It's the great alterative and tonic medicine whose merit has been everywhere established. Accept no substitute.

Failure Reported.

New York, Jan. 9.—The families of Henry Marquand and Percy R. Pyne, members of the collapsed brokerage firm of Marquand & Co., have suffered [illegible] failure of the firm, whose stock was hypothecated. The assets of the firm would not pay more than 10 cents on the dollar.

He writes: "I was cured by using Foley's Kidney Cure, which I recommend to all, especially trainmen who are similarly afflicted." Trimble Bros.

Severed Relations.

Shamokin, Pa., Jan. 9.—The Marion Heights Coal company, composed of local capitalists, severed relations yesterday with the coal carrying roads, being the first small company in this field to take the step. The Enterprise and Excelsior Coal companies, with headquarters here, expect to follow suit shortly. The companies have orders far ahead of date.

HE REFUSED TO SELL.

Turner and His Great Picture, "The Building of Carthage."

When Turner exhibited his great picture, "The Building of Carthage," he was disappointed because it had not been sold at once at the private view and angry with the press for criticising it severely. Sir Robert Peel called upon him.

"Mr. Turner," said he, "I admire your 'Carthage' so much that I want to buy it. I am told you want 500 guineas for it."

"Yes," said Turner; "it was 500 guineas, but today it's 600."

"Well," said Sir Robert, "I did not come prepared to give 600, and I must think it over. At the same time it seems to me that the change is an extraordinary piece of business on your part."

"Do as you please," said Turner. "Do as you please."

After a few days Sir Robert called again upon the great painter. "Mr. Turner," he began, "although I thought it a very extraordinary thing for you to raise your price, I shall be proud to buy that picture, and I am prepared to give you the 600 guineas."

"Ah!" said Turner. "It was 600 guineas, but today it's 700."

Sir Robert grew angry, and Turner laughed. "I was only in fun," he said. "I don't intend to sell the picture at all. It shall be my winding sheet."

For years he kept it in his cellar. Then it was brought up and hung in his gallery, where it remained as long as he lived. When he died, he left it to the nation.—Youth's Companion.

Forcing the Pace.

George Gordon, an old Scotchman of miserly habits, was dying. A neighbor who was on friendly terms with the old man's relatives agreed to call on the minister and beg him to try to induce the old fellow to make a will. The minister consented and at length persuaded the miser to allow a lawyer to be sent for.

By the time he arrived the old man was rapidly sinking, but the will was smartly drawn up and duly awaited his signature. He was propped up in bed and managed to write "George Gor—." Then he fell back exhausted.

An eager relative who stood by seized the pen and stuck it in the dying man's hand.

"D," Gentle, "d," referring to the next letter of the signature.

The old man glared up wrathfully.

"Dee?" he snapped. "I'll dee when I'm ready, ye avaricious wratch!"

Somebody Lied.

A certain woman has a husband who has done such a thing as to forget to do what his wife had requested. The other evening about 5 o'clock he came home, and she went at him.

"John," she said, "did you tell that expressman to come here this afternoon?"

"Yes, Mary," he answered meekly.

"Well, he hasn't come."

"Is that so?"

"Yes, it is. Now, how do you account for it?"

John gave the matter a few moments' consideration.

"Well, my dear," he said finally, "either he's lying or I am, and to relieve us both from your suspicions I'll just step down to his place and see what's the matter." And the charitable John went to see the expressman.

A Gustatory Gem.

The chef was ignorant of the presence of the cannibal king, who eyed him critically, while a sunny smile danced gayly over his dimpled features. Suddenly the chef became aware of his presence and said as he most artistically salaamed:

"I would have your majesty know that I have just created a formula for a soup that shall win an instant immortality."

"And what may it be?" asked the monarch impatiently. "I never was an expert in the art of guessing, and I would know the name of your new decoction."

And the chef, appreciating the king's interest and his own importance, salaamed again and replied:

"Mock missionary."—New York Times.

A Ball For a God.

The ancient Egyptians believed that the spirit of their greatest god, Osiris, dwelt among them in the form of a pure white bull marked by a certain sign. Herodotus mentions two of these signs—a black eagle on the back and a black forehead with a square of white in its center. These creatures when found were worshiped during life and mummified after death. The New York Historical society has one of these "bull gods," a fine mummy from the temple of Serapis.

Hopeful.

There was a very small audience present, and it was rapidly dwindling away. On the stage the hero and heroine are holding a rendezvous.

Hero to Heroine—Are we alone?

Heroine (thinking of the audience)—Not yet. There are two fellows near the door who look as if they might be able to sit through another act.

Their Tale of Bliss.

George—Why?

"Oh, they want to be in town all the time to tell everybody how much they like it out in the country."—Life.

Just For a Lark.

Bird Hunter—Sure! I love 'em!

Rabbit Hunter—Then eat my rabbit for a lark.—Harvard Lampoon.

The martyrs to vice far exceed the martyrs to virtue, both in endurance and number.—Colton.

TRAILING THE GROUSE.

Tracking the Birds on Snow Without a Dog Is Good Sport.

There is one form of grouse shooting for which I confess a weakness. This is still hunting, or trailing the birds on the snow. When a new snow falls, the woods are like so much clean paper, and the furry and feathered folk are so many unintentional scribblers. Here a wood mouse dotted along, dragging his tail; yonder a hare passed at speed, scared by the red rascal that made these doglike tracks. Small triangles show where squirrels have traveled from nest to storehouse, and larger triangles betray where the cottontails held conference till a soundless winged owl broke up the meeting.

And here, amid the tan leaved dwarf bushes, is something. Oho! The very sight of it makes you grasp the gun tighter, and you begin to peer ahead and to breathe a bit faster. Those trim prints running yonder in true line were made by a grouse. Careful, now—it's fresh as—Look! Did you not see that brown thing dart from the stump to that tuft of dried fern and bush? Steady, now! He must be right there before you, and he'll go straight away to—

"Whur-r-r!" almost behind you.

"Why, how the!"—Bing! Bang!

Good boy! The first load 's in that maple fifteen yards from your nose, but the quick second did the business. As to how the—ahem!—he got almost behind you when you had seen him directly in front—that's a way he has.—Edwyn Sandys in Outing.

The Crow That Wears a Fool's Cap.

The following clever way of keeping crows away from a grainfield is used by the farmer of Holland:

He makes some small caps of stout paper and smears around the inner side of the mouth of each some bird lime or other sticky stuff. In these he puts some grains of corn and stands them about his fields by pressing their points into soft earth.

When the crow finds one of these paper caps, he thinks himself in great luck until he attempts to peck at the tempting grain, when, to his astonishment, he finds the cap attached to his head—a regular fool's cap—which will not even allow him to see what course to take if he flies up.

However, he succeeds in reaching some course grass or bushes and after much bewildered scrambling and flopping about gets his head out of this undesirable cap and ever afterward avoids the field where there are more of them.

Adam's Birthday.

Formerly Oct. 23 was regarded as Adam's birthday. Theologians of the sixteenth and seventeenth centuries wasted much scholarship in efforts to settle both the manner and the date of creation. Dr. John Lightfoot, vice chancellor of Cambridge, a Hebrew scholar of European reputation, published a statement to the effect that, after years of research, he had succeeded in discovering the precise moment when the earth "rose out of chaos" and man made his appearance upon it. This learned divine declared that "heaven and earth, center and circumference, were created all together in the same instant and clouds full of water," and that "this work took place and man was created by the Trinity on Oct. 23, 4004 B. C., at 9 o'clock in the morning."

Alexander's Miserable End.

At a period when most men who succeed are just beginning to mount the first stepping stone of success Alexander the Great was at the summit of his power. With a trained force of less than 40,000 men he had over run all of what was then considered the civilized part of Asia and also Egypt. He overthrew army after army immeasurably his superior in numbers so swiftly that the world was dazzled by the rapidity, scope and magnitude of his achievements. He was looked upon as a sort of demigod. And yet even he was sighing because there were no more worlds to conquer. He perished miserably after a prolonged debauch. His mighty empire melted like a mist under the influence of the rising sun and his life work went apparently for nothing.

He Didn't Buy.

"Waal, some ways I'd like to an' some ways I guess I wouldn't," said honest Farmer Bentover when the suave dispenser of encyclopedias had paused in his siren song. "Ye see, if I was to sign fer that 'ere cyclopedee in forty-seven parts, includin' the index an' appendicitis, I'm sorter afraid I'd hev to work so hard to pay fer it that I'd be too tired to enjoy readin' it, while if I read it at my leesure, as I'd ort to, in order to git the good of it, I wouldn't hev time to earn the price. So, all things considered, I guess I'll hev to deny myself the privilege, as it were. Looks sorter like rain off to the northwest, don't it?"—Judge.

A Stumper.

"Papa," said Tommy Treadway.

"Now, Tommy," replied Mr. Treadway, "I shall only answer one more question today. So be careful what you ask."

"Yes, papa."

"Well, go on."

"Why don't they bury the Dead sea?"

Discouraging Concession.

"Do you think you could be happy with a man like me?" said Willie Wishington earnestly.

"Oh, yes," answered Miss Cayenne after a pause, "I think so—if he wasn't too much like you."—Washington Star.

"Oh, he's down on his luck."—Detroit Free Press.

BIG TELEPHONE CONSOLIDATION.

Will Take In Almost All the Companies in Ohio and Will Have $10,000,000 Capital.

Cincinnati, Jan. 10.—A consolidation of telephone companies in Ohio, to be known as the United States Telephone company, will be incorporated in New Jersey not later than early next week, with a capital of $10,000,000. It includes the Everett-Moore lines, as well as other systems except the Bell interests. The consolidation provides for an entry into Cincinnati and connections with all independent companies between Cincinnati, Dayton, Toledo, Cleveland and Columbus. The stock consists of $2,500,000 6 per cent cumulative first preferred, $2,500,000 non-cumulative second preferred, and $5,000,000 common.

Cleveland, Jan. 10.—President Dickson, of the United States Telephone company, when shown the foregoing dispatch, said:

"There is absolutely no truth in the report so far as the United States Telephone company is concerned. A plan for refinancing and widely extending the United States long distance has been practically decided upon and will be submitted to the directors of the company at a meeting to be held next week.

"I understand, however, that a new independent telephone company is being organized in Cincinnati, which possibly, may absorb some of the existing companies not controlled by the Everett-Moore syndicate."

Mr. Phipps' Generous Gift.

Philadelphia, Jan. 10.—Dr. L. F. Flick, president of the free hospital for poor consumptives here, last night announced that Henry Phipps, of New York, formerly a partner of Andrew Carnegie, had contributed $300,000 for the establishment of an institution in this city for the treatment and study of consumption. The institution is to be known as "The Henry Phipps Institute for the Study, Treatment and Prevention of Tuberculosis." It will be so endowed as to derive an income of about $30,000 to $40,000 annually. Dr. Flick will be director general of the institution. The endowment plan will increase the fund to about $1,500,000.

Steps to Reorganize.

Cleveland, Jan. 10.—At a meeting yesterday of the directors of the Lake Shore Electric Railway company preliminary steps were taken looking to refinancing and reorganizing the property. The road, which extends from this city to Toledo, is one of the Everett-Moore lines and has been in the hands of the receiver since its financial troubles of the syndicate began, a year ago.

Beautiful Thoughts

The sweet, pure breath of the babe is suggestive of innocence and health.

A mother's yearning for children is inseparable from a love of the beautiful, and it behooves every woman to bring the sweetest and best influence to bear on the subject of her maternity.

To relieve pain and make easy that period when life is born again,

Mother's Friend

is popularly used. It is a liniment easily administered and for external use only. Pregnant women should not try this remedy, it being undeniably a friend to her during maternity, as experience and investigation fully testify. Mother's Friend, if used throughout gestation, will soften the breasts, thereby preventing caked and sore nipples. All muscles straining with the burden will relax, become pliable and elastic from its continued application.

All fibres in the abdominal region will respond readily to the expanding cover containing the embryo if Mother's Friend is applied externally during pregnancy. Of all reliable druggists. $1.00 per bottle. Write for free book on "Motherhood."

OHIO MAN KILLS WIFE AND SELF

Couple Had Separated, Woman Charging that Husband Had Abused 14-Year-Old Daughter.

Adrian, Mich., Jan. 10.—William H. Chio, aged 45, of Toledo, yesterday afternoon shot and killed his wife, Elizabeth, aged 35, and then fired the 32-calibre revolver at his own breast. Both victims were dead, the woman with a bullet wound through her heart, when a crowd of people, who heard the shots, broke into the parlor of Platt's hotel, where the tragedy occurred.

The couple had been living apar and the woman was an employe of the hotel. She had charged that her estrangement from her husband had been due to the latter's abusive treatment of their 14-year-old daughter. Chio came here from Toledo Thursday, and Landlord Platt, fearing trouble, had hesitated about allowing him to see his wife yesterday afternoon, but finally consented when Chio promised that he would not again trouble Platt with such a request if he was granted the interview yesterday. The couple had been conversing alone in the parlor about a quarter of an hour, when the five shots that ended their unhappy lives rang out in rapid succession.

Must Pay Taxes.

Columbus, O., Jan. 10.—According to a decision handed down yesterday by Judge Thompson, of the United States court, in the case of the Western Assurance company, of Toronto, Canada, against the treasurer and auditor of Franklin county, all foreign insurance companies having money, bonds or other securities on deposit with the state treasurer, must pay taxes on the same in Franklin county. In the suit of the Western Assurance company, which sought to prevent the taxing of $100,000 worth of bonds which it deposited with the state treasurer, the court held against the company. There are several million dollars worth of bonds deposited by foreign insurance companies with the state treasury.

Mrs. Miller Sentenced.

Columbus, O., Jan. 10.—Mrs. Anna T. Miller, convicted of conspiracy and misuse of the mails in an alleged attempt to blackmail certain prominent business men of Columbus, was sentenced to 13 months in the penitentiary by Judge Thomson, in the United States court, yesterday. Thomas E. Steele, her attorney, convicted on the same charges, whose motion for a new trial was to have been argued yesterday, did not appear in court. He is under $3,000 bond, and has been absent from the city for more than a week, and his most intimate friends say they have no information of his whereabouts. Mrs. Miller's husband, Joseph P. Miller, and his attorney Ivor Hughes, are also under indictment on the charge of using the mails to defraud.

Working Full Handed.

Philadelphia, Jan. 10.—Both the Pennsylvania and Philadelphia and Reading Railroad companies yesterday announced that all their collieries in the anthracite coal region are working full handed and that hundreds of cars of coal are being shipped daily from the mines. At the office of the Reading company it was stated that Thursday 1,285 cars had been loaded with coal as their collieries.

IMPORTANT DISCOVERY

Catarrh of the Stomach Is Not a Disease.

But a Condition Resulting from INDIGESTION.

Recent experiments, by practical tests and examination with the aid of the X Ray, establish it as a fact that Catarrh of the Stomach is not a disease in itself, but that it is a condition resulting from repeated attacks of indigestion.

The stomach and alimentary canal, or digestive tract, is lined or coated with a mucous membrane. Studding the surface of this mucous membrane are the gastric glands. Here, also, are the terminal branches of the pneumogastric nerves, and many branches from the sympathetic system. When the stomach is overloaded, or when food is taken into it that fails to digest, it decays—rots, and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucin, instead of the natural juices of digestion. This is called Catarrh of the Stomach. The condition was never known to exist except when preceded by indigestion. In other words, we cannot have what is commonly called Catarrh of the Stomach until we have had indigestion. Hence the manifest need of a perfect cure for Indigestion.

KODOL cures Indigestion and prevents and cures Catarrh of the Stomach. To those persons who have allowed their indigestion to run into chronic Dyspepsia and then into that condition known as Catarrh of the Stomach, we say take KODOL at once.

Kodol supplies the gastric glands with a healthy quantity of the digestive juices, thus relieving the stomach of all nervous strain, by digesting the food, while that organ takes a rest—recuperates.

In all cases of a weak stomach, indigestion, nervousness, palpitation of the heart, insomnia, general debility, chronic dyspepsia and all wasting diseases, no remedy will so surely and so quickly restore one to the full vigor of health and strength.

The eminent Dr. Hayes, of Washington, D. C., says: "After three years' almost constant use of Kodol, in hundreds of cases referable to faulty digestion and assimilation, I can truthfully say it is the most efficient combination for dyspepsia, indigestion, flatulence, nausea and all gastric disorders that it has been my good fortune to discover. In a number of chronic cases, after exhausting the materia medica for even palliative measures, with negative results, I have perscribed Kodol with marked and increasing benefit, from the first dose until the stomach's disability has been permanently removed. My experience in a general and hospital practice dates from 1872 and I am positive that of all the digestants prescribed in those thirty years, none in my hands has proven so thoroughly effective. Physicians will serve their patients' best interest to put them on Kodol for indigestion and all of its distressing symptoms."

Under the action of Kodol Dyspepsia Cure all wholesome food that may be eaten is digested, assimilated and transformed into blood, brain and brawn.

Nature is willing that perfect digestion should be maintained, and a grateful stomach sweetly responds with growing appetite to the strengthening effect of Kodol upon the digestive organs.

Loss $100,000.

Cleveland, Jan. 9.—Fire early yesterday partially destroyed the central building of the Young Men's Christian association, at the corner of Prospect and Erie streets. The losses to the association and to the merchants occupying stores on the ground floor of the building will aggregate $100,000, partially covered by insurance. The fire originated in the kitchen.

GOBIN CHIEF WITNESS

General Said "Shoot to Kill" Order Issued by Himself Meant All It Said.

NON-UNIONISTS' CASE CLOSED.

Coal Companies Began to Present Their Side of the Strike Controversy Before the Commission Yesterday. Chairman and Commissioner Ill.

Philadelphia, Jan. 10.—After occupying eight days, during which time they heard about 150 witnesses, the non-union men who are a party to the arbitration agreement closed their case yesterday before the coal strike commission. The coal companies opened their case today, and according to the plans of the operators the companies will present their case in the order of the geographical location of their mines. The Delaware and Hudson company, whose collieries are furthest north, will first present its witnesses, and the others will follow, concluding with the Philadelphia and Reading Coal and Iron company, which is in the southern part of the coal field.

General Gobin on Stand.

The principal witness before the commission yesterday was Lieutenant Governor J. P. S. Gobin, senior brigadier general of the national guard of Pennsylvania. General Gobin was in command of the Third brigade during the time the troops were on duty in the hard coal fields. He was on the stand three hours and a half, and during most of this time was engaged in a recital of the conditions as he found them in the territory he covered. He was on duty from July 30 until about Nov. 1 or 2. From his observations and from reports made to him by his officers it was his opinion, he said, that an "excited state of lawlessness" existed in the regions; that disturbances were numerous; that the presence of the troops was absolutely necessary to preserve law and order, and that it was difficult to maintain the law even after all the troops in the state had been placed in the disturbed territory.

Had Several Tilts.

During direct cross-examination General Gobin had several tilts with Clarence S. Darrow, counsel for the miners, but they never reached a serious point.

The witness said when he first went into the coal regions with his men as a result of a riot at Shenandoah he was unable for a time to get vehicles to carry his supplies, teamsters refusing to furnish them. In Shenandoah, Panther Creek valley, he said there was no civil authority at times. Committees of the union called upon him and assured him that the striking miners would give him all the assistance they could, but as far as the witness could remember they never gave him any help, nor did he ask them for any.

"Shoot to Kill" Order.

After his entire brigade had been called out, the general said, the situation became extremely serious in several parts of the strike territory, and he feared he could not cope with the situation if it grew worse. He so informed the governor. The now famous "shoot to kill" order, issued by him after his soldiers had been attacked by stones, was touched upon by Mr. Darrow. The general said it meant every word it said and that the issuance of the order had a most salutary effect upon the community which his soldiers covered. It had such a good effect that it was not necessary to fire one shot. The order, he further said, did not include the shooting of women and children. Mr. Darrow called his attention to the fact that the order did not except them, and the witness replied that his men were not engaged in fighting women and children.

Right of Sentry to Fire.

There was considerable cross fire between Mr. Darrow and the general over the right of a sentry to fire upon a man skulking about the camp of soldiers after dark. The witness finally gave it as his judgment that a sentry has a right to shoot in guarding the men in camp.

Just before the cross-examination was concluded Mr. Darrow wanted to know if General Gobin ever met certain coal operators. He was asked by Commissioner Watkins the object of his questions and Mr. Darrow replied, "To show that his relations with the coal companies were much more friendly to the operators than to the workers."

"That is not true," interrupted the general, and the discussion was stopped there.

Along the Same Lines.

The testimony of a number of witnesses called during the morning session was along the same line as that presented during the last eight days of the commission's sessions.

The evidence of the 150 witnesses called by the lawyers for the non-union men since they opened their case related almost wholly to their personal experiences and to the conditions prevailing in the strike-affected territory as regards lawlessness.

Chairman Gray and Commissioner Wright were both absent from the sessions yesterday. Judge Gray was slightly ill and Colonel Wright had business to attend to in Washington. In the chairman's absence General Wilson presided.

Steady Nerves Mean Self-Control.

No one save those whose nerves are shattered know the horror of the days of unrest—the nights devoid of sleep—the lack of self control—the feeling of utter uselessness. No one but those who have used Dr. A. W. Chase's Nerve Pills know the great comfort they give to the weak, weary, nervous, restless, tired, sleepless, irritable and despondent. To such people they are a sheet anchor in time of trouble—a medicine that can and will carry them back to health, strength, vigor and the full enjoyment of life again as attested to by your own town people.

EAST LIVERPOOL, OHIO.

Mrs. Margaret Tracey, of No. 178 Seventh street, East Liverpool, O., says "One of my family was very nervous subject to nervous spells—weak and miserable—could not sleep and the digestion was very poor. I asked the invalid to take Dr. A. W. Chase's Nerve Pills. The result was splendid—the medicine built her up—enriched the blood—made the nerves strong—gave restful sleep and so strengthened the stomach that digestion is perfect—the old time languid, played out feeling has given place to one of strength and energy and as a result we are more than pleased with the medicine."

A NERVE TONIC NEVER EQUALED

THIS SHAPED BOX—NO OTHER

MASSILLON, OHIO.

Mrs. J. Yost of North Grant street, Massillon, Ohio, says: "Dr. A. W. Chase's Nerve Pills are a very fine medicine. I needed a tonic as I felt run down, had little strength, was nervous, slept poorly and was generally out of sorts. I got the Nerve Pills and they acted well. I eat well, sleep well, feel strong and steady and like work again. I am well pleased and glad to recommend the medicine."

THE NEW YORK STOCK MARKET.

Large Day's Business and Closing Firm and Active—Bonds Were Broad, but Irregular.

New York, Jan. 10.—More business was transacted on the stock exchange yesterday than any day since the semi-panic conditions of the middle of December last. Although the market became extremely irregular, and at one time generally reactionary, there was a free bread market during the whole of the day, and the closing was firm and active at a rally from the low point.

The report of the details of the division of the control of Reading between the Vanderbilt interests caused the speculative imagination to catch fire, and operations were hastily entered upon, seemingly on the assumption that all the recent ills resulting from an overplus of new securities and an inadquate supply of capital to take them up had been cleared away and cured.

Money continued quite easy, in spite of the heavy new demands resulting from the speculation, and a strong bank statement was forecasted both by the large movement of currency from the interior and by the gain on sub-treasury operations resulting from the payments of government interest and the transfers of currency from San Francisco.

The bond market was broad, but irregular. Total sales, par value, $3,760,000.

United States new 4s, coupon, advanced 1 per cent on call.

Stop It.

A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. Trimble Bros.

Ex-Governor Hastings Improving.

Bellefonte, Pa., Jan. 9.—Dr. Harris said last evening that ex-Governor Hastings was holding his own very well and was slightly improved. The members of the family last night felt that Mr. Hastings was noticeably better. His temperature was only a little above the normal, while there were no alarming symptoms in either pulse or respiration.

WEAK LUNGS

Weak lungs are mostly due to a neglected cough. Only a small per cent. of the millions who have consumption inherit it. A slight cold, a tickling or hacking cough is the beginning, and after it has reached a certain advanced stage there is no ending except the grave.

Any case of consumption that is curable; that is, any one having consumption whose family or friends still hold on to a ray of hope, may take comfort in the knowledge of the fact that One Minute Cough Cure will give instant relief and finally cure.

This famous remedy does not pass immediately into the stomach, but lingers long in the throat, chest and lungs, producing the following results:

(1) Relieves the cough.
(2) Makes the breathing easy.
(3) Cuts out the phlegm.
(4) Draws out the inflammation.
(5) Kills the germs (microbes) of disease.
(6) Strengthens the mucous membranes.
(7) Clears the head.
(8) Relieves the feverish conditions.
(9) Removes every cause of the cough and the strain on the lungs.
(10) Enables the lungs to contribute pure, life-giving and life-sustaining oxygen to the blood. Cures Croup and all Cough, Lung and Bronchial Affections.

CONSUMPTION CURED.

"My physician told me one year ago that I would die of consumption inside of a year. I commenced taking One Minute Cough Cure for my lung trouble and it cured me. I have gained 20 pounds and I am a pretty live 'dead woman.' One Minute Cough Cure saved me." MARY F. SULLIVAN, Grand Rapids, Mich.

Pleasant to the taste. Good for Children. Good for every body. For Coughs, Colds, Croup, Whooping Cough, Bronchitis, Asthma, Pneumonia and all Throat and Lung troubles no remedy is so good as

ONE MINUTE COUGH CURE.

The Gas Franchise.

To the Editor of The Daily News:

I notice in The Salem Daily News of January 7 that an informal airing of the "gas franchise question" took place in council chamber Monday evening after adjournment of council, in which it was stated by the president of said company "that at $1.25 a thousand was all he could do; and that he would never submit to being forced to furnish gas for $1.00 a thousand."

He further asked council to investigate the expense and earnings of his company, etc., which is all very well. But would it not be better that the council, or a committee appointed for the purpose, investigate and ascertain at what rate gas is furnished in other cities and towns of about the size and population of Salem—and by comparison determine the rate for the next ten years at which gas should be furnished the citizens of Salem? Coal can be had here at as low an average price as elsewhere, and labor as cheap; and with proper facilities and modern equipment gas can certainly be produced as cheaply here at Salem as elsewhere; and we believe the citizens of Salem are willing to pay a reasonable price for a good quality of gas. All of which is most respectfully submitted.

Candidates Want Early Primary.

Lisbon, Jan. 10.—(Special.)—County Chairman John S. McNutt has called a meeting of the Republican central committee of the county, together with those who will be candidates at the coming spring primary. The meeting will be held in the court house Saturday, January 17, when rules and regulations to govern the primaries will be adopted, and the date named on which the primary is to be held. It seems to be the sentiment of candidates heard from that the primaries should be held this year either on March 28 or April 18.

Salem Getting Popular.

CASTRO'S ANSWER ACCEPTABLE

British Foreign Office Declares Its Terms Satisfactory—Revolutionists Again Beaten.

Berlin, Jan. 10.—President Castro's acceptance of the arbitration conditions of the allied powers was received yesterday at the foreign office here, where it is regarded as being a long step toward a settlement of the questions in dispute. The foreign office hopes that most of the points will be arranged amicably at the preliminary discussion at Washington before reaching The Hague arbitration court.

London, Jan. 10.—President Castro's reply to the powers, accepting the arbitration conditions of the allies, was delivered to the foreign office yesterday afternoon by Craig Wadsworth, third secretary of the United States embassy. Mr. White, the charge d'affaires, is ill and has been in the country most of the week. It was said at the foreign office that President Castro's reply was entirely acceptable to Great Britain. The question of time for raising the blockade of the Venezuelan coast has not been decided, but is now being discussed between London and Berlin.

Caracas, Jan. 10.—The port of Tucacas was reoccupied Thursday by forces of the Venezuelan government after a fight with the revolutionists of an hour's duration. Tucacas has been occupied for the last four months by the revolutionists. The revolutionary force under General Ramos, which was defeated last Sunday near Guatiere, has dispersed. The march of the rebels upon Caracas via Guatiere has been completely checked. The government is most active in pursuing the rebels. Another engagement has taken place near Coro and resulted in the rout of the enemy. Octavio Marquez and 180 men were taken prisoners by the government soldiers, who also secured a quantity of rebel ammunition.

GENERAL FOREIGN NEWS.

Ashkabad, Russian Turkestan, Jan. 10.—There was another violent earthquake at Andijan on Wednesday, but it did not result in any further loss of life.

Vienna, Jan. 10.—Private Telegrams received here from Macedonia says alarming reports of new atrocities are circulated daily and that people are fleeing from the country in increasing numbers.

Madrid, Jan. 10.—A dispatch received here from Melilla, Morocco, says that Bu Hamara, the pretender to the throne, has been defeated near Fez and has retreated to Taza. Several more tribes have abandoned the revolutionary movement and have submitted to the sultan.

Berlin, Jan. 10.—Ambassador Von Holleben was not recalled from Washington, but learning that his government was not wholly satisfied with his work and feeling ill and depressed, he cabled for a long leave of absence, which was immediately granted. He will not return to Washington.

Issued Orders to Pay.

Altoona, Jan. 10.—Orders were issued from the office of General Superintendent George W. Creighton, of the Pennsylvania railroad, yesterday, to pay all the company's employes who served in the national guard on strike duty in the hard coal regions last fall the wages they would have made had they been at home and working full time. All the men on the Pennsylvania division are included. The amount of money to be distributed in this manner will aggregate $10,000. This is an entirely new departure and is taken to mean that the railroad company intends to encourage its employes to become members of the national guard.

Mine Inspector's Report.

Shamokin, Pa., Jan. 10.—Mine inspector Edward Brennan, of the seventh anthracite district, reports that there were 16 fatal and 72 non-fatal accidents in the district in the year 1902. Owing to reports from several collieries not having been rendered yet the yearly tonnage could not be given.

Was Frozen to Death.

Reading, Pa., Jan. 10.—Word was received here yesterday that James M. Baker, a business man of Hamburg, this county, aged 52 years, who has been missing since Christmas, has been frozen to death near Phoenixville. His body was found there some days ago, but only identified yesterday.

Collision on Big Four.

Indianapolis, Jan. 10.—Two passenger trains on the St. Louis division of the Big Four collided last night, four miles west of Moro, Ill., and one mile east of Bethelo. They met head on. Both engines are lying on their sides. One man is missing and one man is known to be badly hurt.

Fractured His Skull.

Altoona, Pa., Jan. 10.—James Wands, the 14-year-old son of Chief of Police Harry Wands, of Tyrone, fell from the scenery floor of the Tyrone opera house and, alighting on his head, fractured his skull. He never regained consciousness and died yesterday morning.

Granted Increase Demanded.

Coshocton, O., Jan. 10.—The local operators ended the strike of coal miners yesterday by granting the 6 cents per car increase demanded. Retail prices have advanced to 10 cents a bushel, the highest price since the civil war.

Captain Gleason Dead.

Leavenworth, Kan., Jan. 10.—Captain W. E. Gleason, regimental quartermaster of the Sixth infantry, U. S. A., died at Fort Leavenworth yesterday, of pneumonia.

Scrofula

Few are entirely free from it.

It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

Closed Local Class.

Thursday evening Prof. and Mrs. H. G. Bailey of Alliance closed their dancing class here this season, the term having been completed with the lesson given them. Mr. and Mrs. Bailey had contemplated arranging for a spring term here, but have given the idea up. Next week they will open a class at Lisbon.

The Coldest.

Friday night was the coldest of the season. This morning thermometers registered four degrees below zero, two degrees colder than it was Friday morning. A sharp wind blew during Friday night, which made it appear much colder than was shown by thermometers.

Dr. Probst Fears Epidemic.

Dr. C. O. Probst, secretary of the state board of health, says there is immediate danger of an epidemic of smallpox throughout the world. He believes that neglect of vaccination is responsible for the spread of the disease, which is now prevalent on all continents.

Farm Leased.
